

Brewery Tour Health and Safety Information

Your personal tour guide will take you around our Brewery where you will experience the all the aspects of brewing that takes place here at WeBrew. The guided tour takes approximately 90mins, the tour starts and ends in the Unit 4 Brewery Tap where you can sample our legendary beers! So, we do recommend at least 2hours for the full WeBrew experience. The Brewery tour will commence on time, we recommend that you arrive 15 minutes in advance. We are sorry but we are unable to wait if you are late.

We recommend flat shoes, boots or trainer style footwear. Flip-flop style, open toes or stilettos are **NOT** permitted in the brewery. Regrettably, the Brewery Tour itself is not suitable for people with walking difficulties or children under the age of 12 as there are narrow walkways and steep stairs to negotiate, the Unit 4 Brewery Tap, however, are easily accessible for all.

No Open Toe Shoes

No smoking site, this includes e-cigarettes

Remain with your Tour Guide at all times

Whilst we want you to get close to the action, we must insist that you do not touch, interfere or remove anything unless you have been given express permission to do so by your guide. The Brewhouse is a fully operational factory and some surfaces may be hot, or you might inadvertently interfere with the brewing process itself and damage a precious batch of our beer

It is very important that the tour group remain together with the guide at all times. It is easy to get lost on our site and some areas are particularly hazardous that do not form part of the tour.

The brew house is classed as a food production environment and in accordance with the law ours is a non-smoking site, this includes e-cigarettes.
